

**NAME:** WILLIAM ALBEIRO PENAGOS ZAMBRANO

**PHONE:** +57 318 521 3907

**E-MAIL:** billalpeza@gmail.com

**FROM:** Colombia

**GITHUB:** <https://github.com/fortil>

**WEB SITE:** <https://williampenagos.com>

**LINKEDIN:** <https://www.linkedin.com/in/william-penagos-zambrano-67262911b>

## **PROFILE**

I love the code, I like to learn new technologies and I like the challenges. I am developer JavaScript FullStack, with 8 years of experience in development, I have a wide knowledge of web frameworks and programming languages, I had done many web apps, hybrids mobiles and desktop apps.

I love to share my knowledge and to learn from others, I am leader of developer groups like GDG (Google Developer Groups) Cali Colombia and Circle Developers Group, I had been speaker in many conferences too.

Programing languages or FrameWorks I know are:

### **Front end:**

- Vanilla, Angular, RxJS, AngularJS, React (Libraries: Admin On Rest, Redux, NextJS, React Components, Material UI, etc.), GraphQL, Electron (Atom), ReactNative, Phongap, Cordova, Vue (Vuex, Vuetify, Nuxt, etc.), TypeScript, Cordova, HTML5, CSS3, Bootstrap, Materialize, Django, CycleJS, Snabbdom, RamdaJS, Lodash, FlydJS, WebPack, Grunt, Firebase (Cloud functions, Realtime database, hosting, etc), etc.

### **Back-end:**

- NodeJS, Express.js, Loopback, Sails.js, Sequelize, Mongoose, MongoDB, MySql, SQL, WaterLine, RabbitMQ, PHP (Codeigniter, Laravel, Symphony), Python, Django, etc.

### **Tech or platforms:**

- Azure Web Services, Amazon Web Services (Lambda, S3, EC2, Route53, API Gateway, CloudWatch, CloudFront, etc.), Google Cloud, Heroku Web Services, Bluemix, Watson, Git, FileZilla, Putty (SSH protocol), Trello, CPanel, WHM, LAMP, XAMP, Docker, entre otros.

## **WORK EXPERIENCE**

Title: Desarrollador Full Stack

Company: Source Meridian - Oiga Technologies.

Projects: Gotlicks - PavTravel - Purplelab - Certix

Year: Current.

Title: Desarrollador FullStack

Company: Imaginamos SAS.

Projects: Chiper - Sightline Maps

Year: October 2017 to July 2018.

Title: Web Developer

Company: 3creatives

Year: March 2017

Title: Web Developer

Company: Dinox Industrial

Year: Until 2014

## **Projects and/or web pages done**

### **Some posts:**

#### **Sightline Maps, el desarrollo científico en web**

<https://idx.com.co/sightlinemaps-20adff3c8e26>

#### **Siempre es mejor Vanilla**

<https://github.com/fortil/vanilla-is-always-better>

### **Surgas**

Gas and Energy company platform to manage the claims and suggestions.

URL: <http://www.surgas.co>

## **Progressus**

Psychology platform. I'm React and Firebase developer.

URL: <http://www.progressus.co>

## **Certix**

Platform to protect the certificates with blockchain. Backend developer with Sequelize, Mongoose and Hyperledger.

URL: <http://www.certix.co>

## **Gotlicks**

Platform about musician gigs. Angular developer and Backend developer. Backend I did with Sequelize, Express and Mongoose.

URL: <http://www.gotlicks.com/>

## **Delivery Platform**

Project: Manager of the admin platform in back and front side, with Admin On Rest (AoR) - React and Loopback, Sequelize and GraphQL.

URL: <https://chiper.co>

## **LiDAR technology file viewer**

Project: Backend developer and part of the front of a LiDAR file visualization project, scientific technology that uses laser to create an accurate 3D projection, the web application, renders that data and shows them as images, in addition to generating 3D maps in real time.

URL: <https://www.sightlinemaps.com>

## **Booking system for Procinal cinemas**

Project: Implementation of a reservation system completely in JavaScript, connecting with webservice.

URL: <https://www.procinal.com>

## **News portal**

Project: Implementation of a news portal where front and backend is in JavaScript, with push notifications, real time database, and some of the technologies of the Progressive Web Applications.

URL: <https://www.ncnoticias.com>

### **Página Web - catálogo**

Project: Web page about energy company

URL: <https://www.gsen.com.co>

### **Aplicación para dispositivos Android y iOS**

Project: App to take pictures for news reporters "urbanos".

URL: <https://www.ncnoticias.com>

### **Aplicación para dispositivos Android y iOS**

Project: App to resolve tasks.

URL: <https://www.ala3.co>

### **App to peace: App about the peace agreements**

Project

PlayStore: <https://play.google.com/store/apps/details?id=com.eulerion.appparalapaz>

### **Project: App web.**

Company: Prestaya

<http://prestaya.dinoxindustrial.co>

### **Web pages**
